Jim, thx. Karen and I spoke with Keith about this. In some way, Jared will weigh in upon his return, but in terms of the info requested, pls work with Sam re item 1 below this week. You and Karen can confer re item 2, and perhaps Jared will want something done before we circle back to others. Thx

Subject: Fw: Meeting with Leah Russin (Sen. Feinstein) - Notes and Action Items

Alexis: I spoke with HQ this morning about follow up issues from Jared's meeting last Friday with Leah and others in DC. We're not sure if Jared has already contacted you about any potential follow up issues. Below are the ones that deal with water issues; the first one (1) would be a summary of the projects in the bay that we are currently funding/working on (or plan to work on based on the restoration plan). This would be summary of the restoration plan projects.; the second one (2) is not a direct follow up but rather that we coordinate with CEQ regarding NEPA issues in the future.

Bill Keener is also going to try and touch base with Teddy today to try and find out more but I wanted to make sure what you saw the notes and the request. Is this something that I can work with Karen on when she gets back next week? We can also have a call with HQ's staff to get a better understanding of the request and how the discussion went. Thanks for your help, Jim

Meeting Notes:

Bay Area Restoration

- Sen. Feinstein supports "in the Bay" projects and does not support efforts to create a program office
- Leah urged a letter from R9 to Sen. Feinstein summarizing and highlighting projects (1)

Bay Delta Conservation Plan

- Sen. Feinstein is concerned about a letter from EPA to federal partners about NEPA issues (this was a letter from Alexis) (2)
- the letter may undermine efforts to resolve water conflicts
- urged EPA to work with CEQ and federal partners to resolve NEPA concerns
- R9 will keep Sen. Feinstein's office informed about an ANPRM
- concern about ammonia and pesticide pollution
